

NEW BUSINESS SETUP PROJECT IN DUBAI

iWORLD Artificial Intelligence & Cybersecurity Company

A Strategic Business Setup & Investment Project in Dubai

Providing specialized training courses and technical consulting for students, professionals, and corporate organizations.

The Market Mandate: Exponential Growth in Dubai

The Vision & Mission

Developing qualified talent and empowering UAE organizations to keep pace with digital transformation under the highest standards of security and intelligence.

Project Significance & Value Proposition

Bridge the gap
between academic
education and
modern market
demands in Dubai.

Equip students and
professionals with
generative and
analytical AI
capabilities.

Enhance
cybersecurity
readiness to
safeguard
corporate and
government assets.

Offer certified
credentials that
boost market
competitiveness
and drive the digital
economy.

Target Ecosystem & Market Segments

Students & Graduates

Intensive bootcamps designed to build hands-on skills and accelerate entry into tech career opportunities.

Corporates & Institutions

Tailored corporate training programs to upskill teams, fortify digital infrastructure, and protect data assets.

Leaders & Executives

Executive workshops focusing on AI-driven decision making and strategic cybersecurity governance.

The Dual-Engine Core Capability

Artificial Intelligence

The Engine of Innovation.
Driving administrative automation, generative enterprise applications, and big data analytics.

Cybersecurity

The Shield of Continuity.
Ensuring intrusion awareness, encryption, threat mitigation, and incident response.

True digital transformation requires both aggressive innovation and impregnable defense. iWORLD delivers them simultaneously.

Curriculum Diagnostic Matrix

Track 1: Artificial Intelligence 		Track 2: Cybersecurity 
Foundations	Machine Learning fundamentals & AI programming.	Digital Security Basics & Ethical Hacking.
Enterprise Value	Big Data Analytics & Administrative Automation.	Network Security, Encryption, & Threat Mitigation.
Advanced App	Enterprise Applications of Generative AI.	Social Engineering & Intrusion Awareness.
Leadership/Policy	AI Governance, Ethics, & Regulatory Compliance.	Risk Management & Incident Response Handling.

Corporate Training Solutions (B2B)

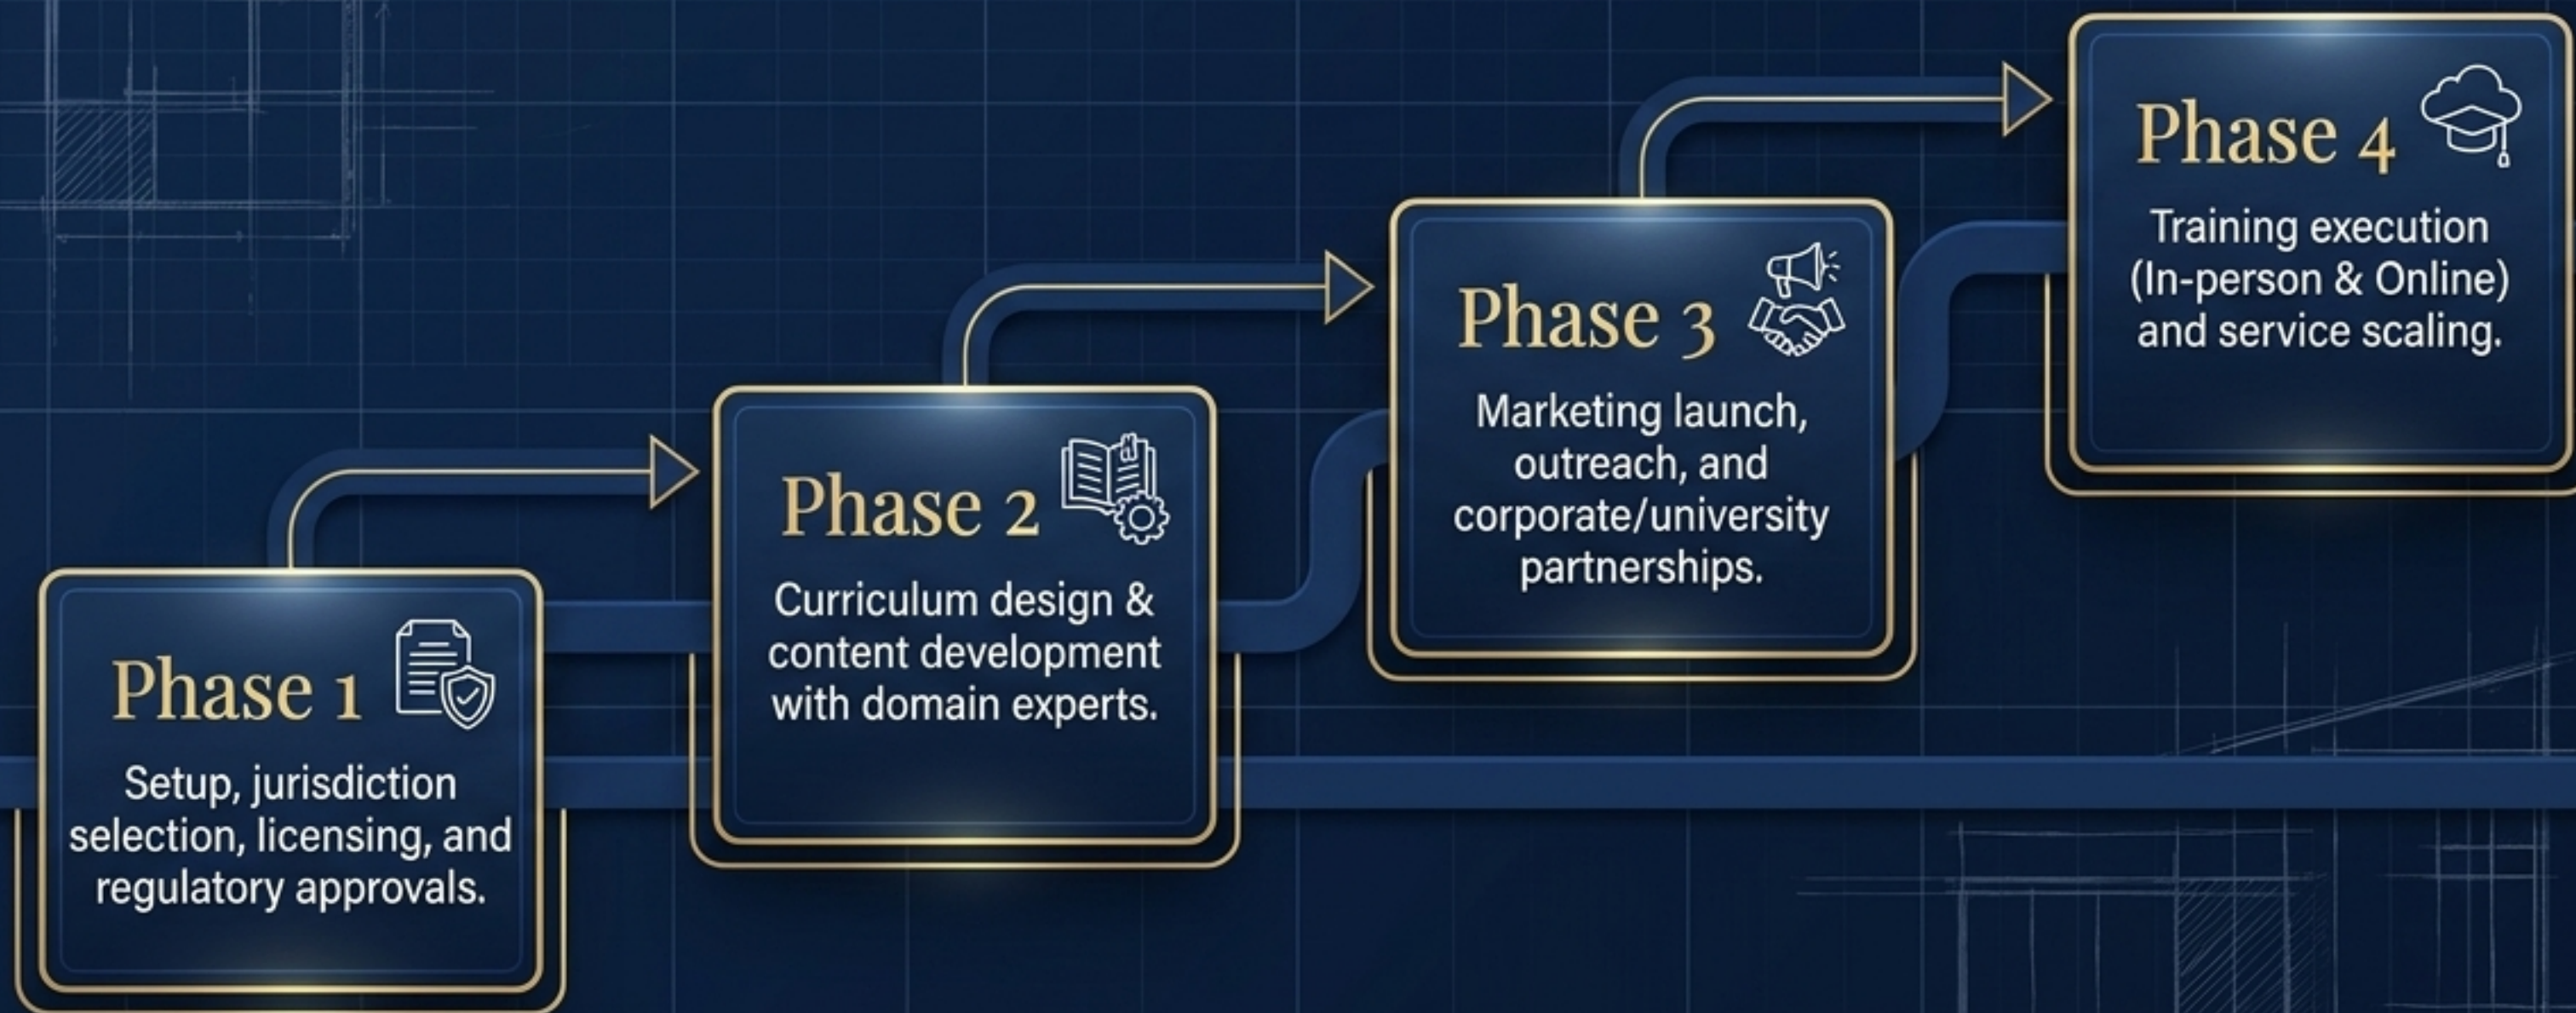

Customized Programs & Defense

We deliver comprehensive B2B training solutions tailored after thorough risk and skill-gap assessments.

Custom learning paths for each industry designed to maximize ROI on human capital development in Dubai.

Operational Launch Roadmap

Strategic Launch Investment

Corporate Setup & Compliance

- Trade licenses (Free Zone/Mainland), Permits & Training Accreditations, Residence Visas & Govt Fees.

Premium Facility Acquisition

- Securing high-end flexible workspaces/dedicated training centers tailored for tech education.

Tech & Curriculum Infrastructure

- IP licensing, proprietary content development with domain experts, and digital hardware.

**Total Capital Requirement:
400,000 AED**

Phase 1 Operational Runway

- Marketing launch, partnership outreach, and initial scale-up capital.

The Future Horizon: Regional Expansion

To become the premier accredited hub in the GCC region for cutting-edge technical education and leadership development in AI and Cybersecurity.
